Secondary	Don Bosco Academy/CISCE	93.60	July 2020

PROJECTS

- Social Crap Web App: An automated Instagram scraper web application.

Tools: Selenium, Cloudinary, React, Node.js, Express, MongoDB, JavaScript, HTML, CSS.

Developed an automated Instagram scraper web application using Selenium integrated with Node.js, enabling users to identify non-followers and calculate a Content Engagement Score.

Designed a sleek and modern user interface using Vanilla CSS for delivering a visually appealing and intuitive design for optimal user experience.

Implemented OTP-based authentication and subscription-based authorization for enhanced security and management of advanced feature access.

Created a dynamic multi-page website supporting seamless client-server data exchanges, utilizing MongoDB, Cloudinary, and Nodemailer APIs.

August 2024
- Portfolio Website: A dynamic, responsive and personalized portfolio website.

Tools: React, Node.js, Express, MongoDB, JavaScript, HTML, CSS, Nodemailer.

Developed a professional portfolio website utilizing MERN stack fundamentals to showcase my projects and skills, and deployed on <https://saimjawed.vercel.app>.

Designed an ultra-modern and elegant user interface with over 12,000 lines of Vanilla CSS to ensure responsiveness and a seamless user experience across devices.

Implemented light and dark modes using Redux store and React hooks, enhancing accessibility and customization options.

Integrated multiple interactive micro-elements and dynamic touch-points to enhance user interactions.

July 2024

SKILLS

- Programming Languages: C | Java | Python | JavaScript

Technologies: Next.js | React | Node.js | Express | MongoDB | MySQL | HTML | CSS

Tools: AWS | Selenium | Linux | Figma | Blender | Adobe Photoshop

CERTIFICATIONS
